

Tint-Seal

PRODUCT NAME:	Tint-Seal
PRODUCT NUMBERS:	TS1, TS5
DESCRIPTION:	A one-component urethane penetrating tint sealer.
SUGGESTED USES:	A one-component urethane sealer used to change or enhance the color of pavers and provide them with a UV-resistant, protective, rejuvenated coating.
ADDITIONAL USES:	Roof Tiles
COLOR:	Light Yellow
FINISH:	Satin/Semi-Gloss
VEHICLE TYPE:	Urethane Acrylic
SOLVENT TYPE:	Water
VOC:	≤ 50
WEIGHT PER GALLON:	8.1 lbs.
SOLIDS BY %	35%
COVERAGE:	Coverage depends on the porosity of the pavers. Spraying (Recommended) – 250-300 sq. ft. per gallon.
RECOMMENDED DRY TIME:	At 70°F and 50% relative humidity: Touch – 1 hour (depending on weather). Recoat – 2 hours. Surface will be tack free in 1 hour, ready for foot traffic in 2 hours and vehicle traffic in 72 hours. Dry times may vary depending on air temperature, wind, and humidity.
LIMITATIONS:	CAUTION: DO NOT apply in temperatures below 50°F. DO NOT apply to a damp surface. On excessively hot surfaces, for example direct sunlight on a hot day, drying may occur too rapidly, causing trapped vapors to bubble. If this occurs, we recommend application during a cooler time of day.
SURFACE PREPARATION:	Pavers must be clean, dry, and free of any dirt, stains, and failed sealer. On bare concrete, the surface must be clean and dry.

MIXING: Mix Tint-Seal Color Pack in the sealer for two minutes directly before use. If the mixture is allowed to sit, mix again before use.

APPLICATION: For the most uniform application, apply with an airless sprayer. If a pump sprayer is used, ensure that it reaches full atomization.

SHELF LIFE: 2 years

PACKAGING: 1 gallon, 5 gallon
